

annual rental of \$44.40. The term of this easement shall be for only that period during which the Standard Oil Company of California shall construct and operate a certain defense plant to be constructed and operated under a contract with the Defense Plant Corporation provided, however, that this easement shall terminate in the event the Defense Plant Corporation is no longer an agency of the Federal Government for the carrying on of defense activities as provided in the said existing contract; and in no event shall the easement exceed a fifteen year term. Should the Defense Plant Corporation cease to exist or should its name be changed, or should any successor in interest develop thereto, the easement shall immediately terminate. In addition, should the Standard Oil Company of California fail to operate the defense plant for a period of one year, or should the Standard Oil Company of California fail to exercise within the fifteen year term of the easement any option or right to purchase from the Defense Plant Corporation said defense plant, the easement authorized to be issued shall then immediately terminate. The Standard Oil Company of California shall be required upon any termination of the easement to remove any facilities constructed thereon within ninety days after termination at their own expense.

17. Upon motion duly made, seconded and unanimously carried, a resolution was adopted whereby approval was given for the issuance of Easement No. 90, Public Resources Code, to the Standard Oil Company of California, for a right-of-way over tidelands at El Segundo upon which is to be constructed a cathodic protection anode and connecting cable. The consideration to the State under this easement is to be an annual rental of \$54.00. The terms and conditions for which and under which this easement shall be issued are the same as those outlined under item 16.

18. Upon motion duly made, seconded and unanimously carried, a resolution was adopted whereby approval was given for the issuance of Easement No. 80, Public Resources Code, to the Standard Oil Company of California, for a right-of-way over tidelands at El Segundo upon which is to be constructed a 48" salt water intake line. The consideration to the State under this easement is to be an annual rental of \$66.00. The terms and conditions for which and under which this easement shall be issued are the same as those outlined under item 16.

19. Upon motion duly made and carried, the Executive Officer was authorized to add Rule 223 under Regulation A to the Rules and Regulations heretofore adopted, as follows:

\* A minimum annual rental of \$40.00 for each right-of-way plus two cents per lineal foot for rights-of-way over State lands where such rights-of-way do not exceed 100 feet in width.

The heading of Regulation A of the Rules and Regulations shall be changed by the addition thereto of the words "and commercial use of school land".

20. Upon motion duly made and carried, a resolution was adopted whereby approval was given to the Executive Officer to issue a new easement to the Standard Oil Company to replace right-of-way Easement No. 7, Public Resources
