

6. (Request for Deferment of Drilling Requirements - Hamilton - Sherman, et al., Huntington Beach, Oil and Gas Lease No. P.R.C. 91) The Commission was informed that a request has been received from H. R. Hamilton, et al., Lessee under State Oil and Gas Lease No. P.R.C. 91, Huntington Beach, for an extension of the deferment of further drilling requirements under Oil and Gas Lease No. P.R.C. 91, as granted by the Commission on March 19, 1948, for the period ending May 15, 1948. The proposed deferment would be subject to the rights of the State at any time to serve notice upon the lessees to either resume development or quitclaim the undeveloped areas of the lease as provided for in the subject lease. On June 28, 1947, the Commission approved the procedure of deferring any current drilling requirements under the terms of any State oil and gas lease on tide and submerged lands upon the request of the lessee until such time as the status and equity of such requirements has been clarified.

Upon motion duly made and unanimously carried, a resolution was adopted authorizing the Executive Officer to grant a deferment of any further drilling requirements as stated in oil and gas lease No. P.R.C. 91, as modified, for a period of ninety days from and after May 15, 1948. The grant of the deferment is to be subject to the right of the State at any time to serve notice upon the lessee to either resume development under the lease or to quitclaim all undeveloped areas.

7. (Removal of Groin No. 25, Castle Rock County Beach, Los Angeles County - W. O. 305) The Commission was informed that the County of Los Angeles has made application to remove Groin No. 25 at Castle Rock County Beach, Los Angeles County. This Groin is in a very bad state of repair, is hazardous to bathers, and should come out. It has been partially replaced heretofore by a grouted rubble groin. The County is providing \$25,000.00, which is the estimated cost of this removal. The groin was built from the littoral land owned at the time of construction by the Los Angeles Mountain Park Company into the tide and submerged land. Construction was approved by the Division of State Lands in 1932. In the meantime, the littoral lands have become the property of the Division of Beaches and Parks. If the groin is now repaired it would possibly be up to the State to defray the cost. In the interests of the proposed lease of the area to the County of Los Angeles by the Division of Beaches and Parks, the County Board of Supervisors is undertaking the removal. Approval of the removal has been given by Colonel Kelton, Beach Erosion Engineer, Division of Beaches and Parks.

Upon motion duly made and unanimously carried, a resolution was adopted authorizing the Executive Officer to approve the removal of Groin No. 25 at Castle Rock County Beach, excluding the recently constructed grouted rubble portion.

W.O.305)

8. (Lease of tide and submerged lands fronting on Ocean, City of Coronado - The Commission was informed that application has been received from the City of Coronado for a lease of all of the tide and submerged lands under the jurisdiction of the Commission between the ordinary high water mark and the three mile limit in front of Coronado and on the Pacific Ocean between its easterly and westerly boundaries extended seaward. This lease is desired for recreational purposes only, and to assist the City of Coronado in exercising its police jurisdiction and safety measures for bathers along the beach. The extent of the lease is approximately 14,000 feet along the ocean front and to the three mile limit within the boundaries of the City extended seaward to the three mile State boundary.
