A portion of the area applied for is occupied by a pier constructed in 1876 under a twenty year County franchise which was not renewed. On December 26, 1946, the applicant was notified of the necessity for their obtaining a lease of the area occupied, that date under Commission policy becoming the effective date of a prospective lease. Application received covers the area occupied by the existing pier and an additional area for a proposed extension. The area applied for has been appraised by Mr. Roy Boylin, an independent appraiser, and value fixed at \$150 per acre. Area occupied by the existing pier consists of 5.80 acres with a total value of \$870.00. Rental at 9.9 percent of this value amounts to \$86.13, or a total back rental of \$334.52 to December 26, 1950. The additional area applied for, consisting of 3.78 acres and having an appraised value of \$567.00 having a rental base of 6.6 percent, calls for an additional annual rental of \$37.42, payment to start December 26, 1950. On and after the latter date, annual rental will be \$123.55. Performance bond in the amount of \$10,000 appears to be adequate, to be increased when the extension is constructed. Filing fee and expense deposit have been paid. Lease was requested for an original period of fifteen years with right of renewal for three additional periods of ten years each.
