It is proposed that the extension of Lease 56 be issued in the same form approved by the Commission heretofore for all renewals and extensions of Chapter 303-1921 leases in the Rincon and Elwood Oil fields, and specifically in the form authorized for the renewal and extension of Lease 90 (303-1921), Elwood Field, to the Honolulu Oil Corporation on November 21, 1949 (Minute Page 1016-1017, Item 7).

The original terms of Lease 56 (303-1922), required the drilling of one well for each 10 acres of the total area of 121.86 acres leased. 8 wells were actually drilled in compliance with this requirement and it is proposed in connection with the renewal and extension that 41.86 acres of the original lease area will be surrendered by the lessee and 80 acres retained on the basis of 10 acres for each well completed.
