

28. (APPLICATION FOR PERMIT TO DREDGE, RICHARDSON BAY, MARIN COUNTY, REEDPORT PROPERTIES, INC. - W.O. 1220, P.R.C. 716.) Reedport Properties, Inc., has applied for a permit to dredge a portion of Salt Works Canal in Richardson Bay, Marin County. Salt Works Canal is one of those reserved to the State for canal purposes by the Board of Tide Land Commissioners in 1871-72. Tide land lots on both sides of the canal were sold by that Commission, but the canal has never been dredged. In a plan for development of the adjacent area, Reedport Properties, Inc., now proposes to dredge and open a portion of the canal for small-boat navigation. This project is at least a partial carrying out of the long-delayed plans of the former Board of Tide Land Commissioners. For that reason it is considered appropriate not to require payment of more than the statutory filing fee heretofore paid upon compliance with Section 6303 P.R.C. (Permit from the Federal Government).

UPON MOTION DULY MADE AND UNANIMOUSLY CARRIED, A RESOLUTION WAS ADOPTED AUTHORIZING THE EXECUTIVE OFFICER TO ISSUE TO REEDPORT PROPERTIES, INC., SUBJECT TO ISSUANCE BY THE U.S. CORPS OF ENGINEERS OF A PERMIT FOR THE PROPOSED WORK, A PERMIT TO DREDGE A PORTION OF SALT WORKS CANAL IN RICHARDSON BAY, MARIN COUNTY, AND DISPOSE OF SPOILS, THE CONSIDERATION BEING THE IMPROVEMENT OF NAVIGATION.

29. (RESCISSION OF AUTHORIZATION FOR MINERAL RESERVATION, MARKARIAN PROPERTY, FRESNO COUNTY - W.O. 1085D.) On July 16, 1951 (Minute Item 9, Page 1405), the Commission, pursuant to application by the Public Works and Acquisition Division of the Department of Finance, authorized the approval of the reservation to the State of the mineral rights in the sale of the SW $\frac{1}{4}$  of Section 22, T. 13 S., R. 20 E., M.D.B. & M., excepting the west 55 feet thereof. Subsequent review by the Public Works and Acquisition Division of the effect of such reservation on lands not currently known to possess mineral values has shown that the reservation may produce a serious handicap in obtaining proper values for the sale of the surface. Therefore, the Public Works and Acquisition Division, with the concurrence of the Director of Finance, has, by letter of February 6, 1952, requested that the Commission rescind the authorization for retention of the mineral rights in the proposed sale of the subject property. Such rescission is in order because the lands involved do not have any currently-known mineral value, and the reservation authorized heretofore was granted primarily on the basis of cooperation with the request of the Public Works and Acquisition Division.

UPON MOTION DULY MADE AND UNANIMOUSLY CARRIED, A RESOLUTION WAS ADOPTED AUTHORIZING THE RESCISSION AND CANCELLATION OF THE RESOLUTION ADOPTED JULY 16, 1951 (MINUTE ITEM 9, PAGE 1405), WHICH APPROVED THE RESERVATION TO THE STATE, PURSUANT TO SECTION 6404 OF THE PUBLIC RESOURCES CODE, OF THE MINERAL RIGHTS IN THE SALE OF THE SW $\frac{1}{4}$  OF SECTION 22, T. 13 S., R. 20 E., M.D.B. & M., EXCEPTING THE WEST 55 FEET THEREOF.

30. (PROPOSED RESERVATION OF MINERALS, CHINO HILLS AREA, SAN BERNARDINO COUNTY - W.O. 1229.) Section 6404 of the Public Resources Code provides in part that any State agency that sells any of the lands listed in Section 6403 (i.e., land acquired by the State for public use), may, with the approval of the State Lands Commission, reserve to the State any or all oil, gas, oil shale, coal, phosphate, gold, silver, or other mineral
