Corps of Engineers for an Army permit to relocate a 6-inch water main across Noyo River, Mendocino County, near Fort Bragg. On November 28, 1949, the Company was informed that an easement for the area to be occupied by the water main was required, as Noyo River is sovereign land of the State. On December 8, 1949, an application for easement was received from the Plant Superintendent of the Company, with filing fee and the required expense deposit. of the desired easement area, the Commission on December 21, 1949, authorized the issuance of an easement for a period of fifteen years at an annual rental of \$44.54, with the right of renewal for an additional ten years. Easement forms, on December 27, 1949, were transmitted to the Company's Plant Superintendent at Fort Bragg, who, in turn, forwarded them to the Main Office in San Francisco. There then followed a considerable amount of correspondence with Mr. Charles A. Strong of Newark & Strong, Attorneys for Union Lumber Company. On May 26, 1952, a member of the staff called on Mr. Ray E. Shreck, President of Union Lumber Company, and Mr. Strong, to discuss the matter of the easement. Mr. Shreck stated that they did not intend to sign the easement, thereby obligating the Company to pay rental. Twelve reasons were given for not signing, the chief one being that it was a matter of principle the other reasons being entirely without basis.

Because of the refusal of Union Lumber Company to agree to an easement over sovereign lands of the State occupied by water pipe line under Noyo River in Mendocino County,
