

"The Assessor of Kern County has assessed contiguous land from \$1.50 to \$5.75 per acre, thus indicating its appraised value to be from \$3 to \$11.50 per acre.

"An inspection and appraisal by a member of the Commission's staff on February 20, 1955, establishes the value of the subject land at \$10 per acre. The California Portland Cement Company posted the necessary amount to meet this value. Said appraisal also indicates that the land is not suitable for cultivation without artificial irrigation.

"The selection of the subject land is considered to be to the advantage of the State in that the selection thereof will assist the State in satisfying the loss to the School Land Grant and in addition place said land on the tax rolls of the county in which it is situated.

"The State's application to select the land has been accepted by the Bureau of Land Management, subject to future approval and listing. There has been no objection to this acquisition by the State."
