

"A review of inspections and appraisals by members of the Commission's staff on July 20, 1955 and November 16, 1955 has resulted in establishment of the value of the subject land at \$6.50 per acre. The applicant posted the necessary amount to meet this value. Said appraisals indicate that the land is not suitable for cultivation without artificial irrigation.

"The selection of the subject land is considered to be to the advantage of the State in that the selection thereof will assist the State in satisfying the loss to the School Land Grant and in addition will place said land on the tax rolls of the county in which it is situated.

"The State's application to select the land has been accepted by the Bureau of Land Management, subject to future approval and listing."
