"Estimates based on current year's requirement indicate that the State Lands Commission will require reproduction services for 1956-57 fiscal year in the amount of about \$4,000. Contract services in excess of \$2,000 require Commission approval.

"Bids for this work have been solicited from various vendors in the Los Angeles area. The low bid was submitted by the Metropolitan Blueprint Company."

9. (GEOLOGICAL SURVEY PERMIT, SANTA BARBARA, VENTURA, LOS ANGELES AND ORANGE COUNTIES, HUMBLE OIL & REFINING COMPANY - W. O. 2364, P.R.C. 1745.1) The following report was presented to the Commission:

"An application has been received from Humble Oil & Refining Company for permission to conduct geological exploration from mobile marine equipment during the period August 1, 1956 through January 31, 1957. Permission has been requested to conduct core

drilling operations below a depth of 500 feet beneath the ocean floor in those tide and submerged lands under the jurisdiction of the Commission in the offshore area between the extension seaward of the northerly line of Santa Barbara County and the extension seaward of the northerly limits of the City of Newport Beach, Orange County.

"The statutory application filing fee has been paid by the applicant."

Assemblyman Unruh asked if, pursuant to the determination made at the last meeting of the Commission about disclosure of information, the subject permit for core drilling would include the condition that the lessee must agree to the disclosure of information. He was assured that the issuance of the permit would be based upon requiring disclosure of information that has to do with electric logs, analysis of cores, and any other information that may be obtained during the drilling; also, that the State Lands Commission would have an inspector on board the lessee's boat during the time that the exploration work was being done. Upon further questioning by Mr. Unruh, it was explained that this requirement as to disclosure of information reserved the right of the Commission to request the information; in other words, unless it is specifically requested by the Commission, it does not have to be submitted.

UPON MOTION DULY MADE AND UNANIMOUSLY CARRIED, IT WAS RESOLVED AS FOLLOWS:

THE EXECUTIVE OFFICER IS AUTHORIZED TO ISSUE TO HUMBLE OIL & REFINING COMPANY A GEOLOGICAL SURVEY PERMIT, CONFORMING TO THE OPERATING CONDITIONS DETERMINED BY THE COMMISSION MAY 18, 1956, FOR THE PERIOD AUGUST 1, 1956 THROUGH JANUARY 31, 1957 IN ORDER TO OBTAIN GEOLOGICAL INFORMATION INVOLVING DEPTHS IN EXCESS OF 500 FEET BELOW THE SURFACE OF THE OCEAN FLOOR IN THOSE TIDE AND SUBMERGED LANDS UNDER THE JURISDICTION OF THE COMMISSION LYING SOUTHERLY OF THE EXTENSION SEAWARD OF THE NORTHERLY BOUNDARY OF THE COUNTY OF SANTA BARBARA AND LYING NORTHERLY AND WESTERLY OF THE EXTENSION SEAWARD OF THE NORTHERLY LIMITS OF THE CITY OF NEWPORT BEACH, ORANGE COUNTY.
