1. UPON MOTION DULY MADE AND UNANIMOUSLY CARRIED, THE MINUTES OF THE MEETINGS OF JUNE 29, 1956, OF JULY 2, 1956, OF JULY 12, 1956, AND OF JULY 24, 1956 WERE CONFIRMED AS WRITTEN AND MAILED TO MEMBERS OF THE COMMISSION.
2. THE DATE OF THE NEXT MEETING OF THE COMMISSION WAS LEFT OPEN, SUBJECT TO LATER DETERMINATION, WITH AN UNDERSTANDING THAT AN ATTEMPT WOULD BE MADE TO HOLD IT ABOUT SEPTEMBER 15 TO 20, AND THAT IF POSSIBLE AND CONVENIENT TO THE MEMBERS OF THE COMMISSION IT WOULD BE HELD IN LOS ANGELES.
3. (OIL AND GAS LEASE APPLICATION, SECTION 6871.3 PUBLIC RESOURCES CODE, SANTA BARBARA COUNTY - W. O. 2253.) The following report was presented to the Commission:

"On May 18, 1956 (Minute Item 17, page 2686) the Commission authorized the Executive Officer to proceed with the processing for lease offer for the extraction of oil and gas from approximately 5,500 acres of tide and submerged lands in the Summerland area, Santa Barbara County. Pursuant to authorization by the Commission on January 19, 1956 (Minute Item 5, page 255-57) notice of consideration for lease offer was published and transmitted to the Board of Supervisors, County of Santa Barbara; the Mayor of the City of Santa Barbara; and the Director of Natural Resources. In accordance with the Public Resources Code, the notice specified that any affected city or county might request, in writing to the State Lands Commissioner, that a hearing be held with respect to the offering of a lease prior to April 1, 1956. No requests for a hearing were received. However, it was reported that the Board of Supervisors had determined not to request a hearing on the understanding that the same rules, regulations, and protective lease conditions effective for Lease W. O. 2046 (500-acre lease within a known geologic structure issued to Tidewater Oil Company July 2, 1956) would be applied to any lease offer for the subject area. After inspection of the subject area, the Planning Consultant has recommended that the control conditions included in the aforesaid Lease W. O. 2046 be applied to any lease offer of the 5,500-acre parcel under consideration. The consulting geologist has reported that, in his opinion, 'the 5,500 acres should be classified in accordance with Section 6827 of the Public Resources Code as being "not within the known geologic structure of a producing oil or gas field"'. "
