Pursuant to Section 6321 of the Public Resources Code, an application has been received for a permit to be issued jointly to the San Mateo County Harbor District and the United States of America for the construction and maintenance of two breakwaters to protect Halfmoon Bay in San Mateo County.

The Corps of Engineers has estimated that the project will cost in excess of \$4,000,000, which will be paid by the Harbor District and the United States. The breakwaters will be maintained by the United States.

The breakwaters will extend downcoast from Pillar Point and will occupy approximately 24.5 acres of tide and submerged lands. No fees or charges are required.
