APPLICATION FOR DREDGING PERMIT, SAN DIEGO BAY, SAN DIEGO COUNTY, CITY OF CHULA VISTA - W.O. 3558.

An application has been received from the City of Chula Vista for a permit to dredge in an area of submerged lands of the State adjacent to the tide and submerged lands granted to that City under Statutes of 1959.

The dredging on ungranted State land will be for the purpose of extending into deep water the channel proposed to be dredged on the granted lands in connection with harbor development. The ungranted State lands to be dredged contain approximately 15.5 acres. It is proposed that the dredged material, estimated at 200,000 cubic yards, will be deposited on tide and submerged lands within the grant to provide a portion of the required material for a 75-acre tide and submerged land fill preparatory to improvements required under terms of the grant.

The U. S. Corps of Engineers has issued a permit authorizing the conduct of dredging operations at the location described in the application, and the State Department of Natural Resources has reported that the proposed operations will not interfere with the recreational use of the lands littoral to the tide and submerged lands involved in the application. The office of the Attorney General has approved the application as to compliance with applicable provisions of law and the Rules and Regulations of the State Lands Commission.

IT IS RECOMMENDED THAT THE COMMISSION FIND THAT THE ACTION SPECIFIED IN THE APPLICATION OF THE CITY OF CHULA VISTA, DATED APRIL 11, 1960, WILL NOT UNREASONABLY INTERFERE WITH THE MAINTENANCE OR USE OF THE LANDS INVOLVED FOR RECREATIONAL PURPOSES OR PROTECTION OF SHORE PROPERTIES, AND AUTHORIZE THE EXECUTIVE OFFICER TO ISSUE A PERMIT TO THE CITY OF CHULA VISTA AUTHORIZING THE DREDGING OF APPROXIMATELY 200,000 CUBIC YARDS OF MATERIAL WITHOUT THE PAYMENT OF ROYALTY FROM THE FOLLOWING-DESCRIBED AREA IN SAN DIEGO BAY, SAN DIEGO COUNTY:
