APPLICATION FOR DREDGING PERMIT, SALT WORKS CANAL, RICHARDSON BAY, MARIN COUNTY; ASSOCIATED CONTRACTORS - W.O. 4826.

An application has been received from Associated Contractors, a California corporation, for a permit to dredge in the bed of Salt Works Canal, Richardson Bay, Marin County. The proposed dredging will be in the public interest and will reopen this section of the Salt Works Canal to public navigation. An estimated 18,000 yards of material will be excavated from 3 acres more or less in the bed of the canal. All dredged material will be deposited on nearby upland property owned by Associated Contractors, or, alternatively, will be barged away to an approved dumping site.

The area of tide and submerged lands in which the dredging operations are proposed to be conducted was granted to the County of Marin by Chapter 497/59 for harbor and airport purposes. Under the terms of the grant, all minerals were reserved to the State.

Section 6303 of the Public Resources Code provides that "The Commission may grant the privilege of...extracting material from...tide and submerged lands... for improvement of navigation...upon such terms and conditions and for such consideration as will be in the best interest of this State".

The applicant has applied for a Department of the Army permit authorizing the proposed dredging.

The statutory filing fee has been paid by the applicant.
