9.

AGREEMENT FOR EASEMENT 415.1, RIO VISTA ALLOTMENT REVISIONS NOS. 104, 105, AND 106, SACRAMENTO AND SOLANO COUNTIES; STANDARD OIL COMPANY OF CALIFORNIA - W.O. 1320.

The data relative to proposed revisions for the estimated productive limits for the pools within the Rio Vista Gas Field, submitted by Standard Oil Company of California, lessee under Agreement for Easement 415.1, Rio Vista, constituting Revisions 104, 105, and 106 to the Rio Vista Retable-Taking Plan, have been reviewed by the staff. The proposed revisions are based on the results from the completion of new wells, abandonment of a well, and a review of the productive history of all wells in the field.

The net changes in State participation in the allocation of production from the Rio Vista Field represent a small increase in the participation in the West Emigh Pool, and a small decrease in the West Hamilton and East Midland Pools, with the East Emigh Pool participation remaining unchanged, as shown by accompanying tabulation.
