APPLICATION FOR DREDGING PERMIT, NOYO RIVER, MENDOCINO COUNTY; EVERETT S. HAMMAN - W.G. 5008.

An application has been received from Everett S. Hamman for a permit to dredge approximately 500 cubic yards of sand, silt, and gravel from the bed of the Noyo River, approximately one and one-half miles upstream from the Pacific Ocean, in Mendocino County.

The dredging is to be for the purpose of erosion and flood control, to obtain material for road surfacing on nearby property owned by the applicant, and for stabilization of the river bank in the vicinity of the removal area, which is presently being eroded.

Section 6303 of the Public Resources Code provides, in part: "When a... permittee has a... permit from the Federal Government or any authorized public agency to dredge... for the improvement of navigation... the Commission may, when in the best interests of the State, allow such... permittee to have sand, gravel, or other spoils dredged from the sovereign lands of the State located within the area specified in such permit upon such consideration as will be in the best interests of the State..."

The U. S. Corps of Engineers has issued a Department of the Army permit authorizing the conduct of dredging operations at the location described in the application. The Division of Beaches and Parks has reported that the proposed operations will not affect its park program; the Department of Fish and Game has recommended that, if a permit is issued, the operation be restricted to the period June 15 through October 1, 1964.

The \$5 filing fee has been paid by the applicant.

IT IS RECOMMENDED THAT THE COMMISSION AUTHORIZE THE EXECUTIVE OFFICER TO ISSUE TO EVERETT S. HAMMAN A PERMIT TO DREDGE APPROXIMATELY 500 CUBIC YARDS OF SAND, SILT, AND GRAVEL, AT A ROYALTY OF \$0.06 PER CUBIC YARD FOR ALL MATERIAL REMOVED, FROM A PORTION OF THE BED OF THE NOYO RIVER, AND TO DEPOSIT THE MATERIAL ON ADJACENT PROPERTY OWNED BY THE APPLICANT; EXTRACTION OPERATIONS TO BE RESTRICTED TO THE PERIOD JUNE 15 THROUGH OCTOBER 1, 1964.
