8.

APPLICATION FOR DREDGING PERMIT, TIDE AND SUBMERGED LANDS, SUISUN SLOUGH, SOLANO COUNTY; FAIRFIELD-SUISUN SEWER DISTRICT - W.O. 5849.

An application has been received from the Fairfield-Suisun Sewer District for a permit to dredge approximately 9,000 cubic yards of material from portions of Suisun Slough which surround Pierce's Island opposite Suisun City, Solano County. The spoils dredged from the channel will be used to construct exterior levees for an oxidation ponding system on the island, which is owned in fee by the aforesaid District, a public body encompassing the areas of the cities of Fairfield and Suisun City which was formed by an act of the State Legislature.

Section 6303 of the Public Resources Code provides that the Commission may grant the privilege of removing or extracting material from tide or submerged lands owned by the State for the improvement of navigation, reclamation or flood control upon such terms and conditions and for such consideration as will be for the best interests of the State.

The U. S. Corps of Engineers has issued a Department of the Army permit authorizing the conduct of dredging operations at the location described in the application. The Division of Beaches and Parks has reported that issuance of the permit would have no effect upon any of its programs or projects. The Department of Fish and Game has issued a statement of nonobjection to the proposed dredging operations.

IT IS RECOMMENDED THAT THE COMMISSION AUTHORIZE THE EXECUTIVE OFFICER TO ISSUE TO THE FAIRFIELD-SUISUN SEWER DISTRICT A PERMIT TO DREDGE APPROXIMATELY 9,000 CUBIC YARDS OF MATERIAL, WITHOUT PAYMENT OF ROYALTY, FROM AN AREA OF STATE-OWNED TIDE AND SUBMERGED LANDS IN SUISUN SLOUGH DESCRIBED AS FOLLOWS:
