17.

APPLICATION FOR DREDGING PERMIT

APPLICANT: Pacific Gas and Electric Company

DREDGE AREA LOCATION:

Waterfront area of Oleum, San Pablo Bay, Contra Costa County

TYPE OF LAND: Tide and submerged

PURPOSE: To reopen an existing channel to maintain water intake for the Pacific Gas and Electric Oleum Power Plant

REMOVAL VOLUME:

6000 cubic yards (total)

DISPOSITION OF DREDGE MATERIAL:

Landward of bulkhead line, adjacent to dredge area, on State land

CONSIDERATION: Royalty of \$0.10 per cubic yard for material dredged

OTHER PERTINENT INFORMATION:

1. Dredging operations to begin immediately upon issuance of the permit.
2. Applicant conducted previous maintenance dredging operations under a 25-year State easement issued January 6, 1941.
3. A Department of the Army permit is not required
4. The San Francisco Bay Conservation and Development Commission has issued a permit to the applicant for the removal of 1,800 cubic yards of material, which will expire June 1, 1969, but is renewable for 6-month periods.
5. State agencies concerned have commented on the project as follows:
 - a. The Department of Fish and Game has no objection.
 - b. The Department of Water Resources has no objection.
 - c. State Water Quality Control Board No. 2 has no objection but states that roiling of waters and floating debris must be prevented and has requested that they be notified if material is to be deposited as hydraulic fill.
6. The Department of Parks and Recreation has made an examination of the proposed project, pursuant to Section 6818 of the Public Resources Code, and has no objections.
