STATUS OF MAJOR LITIGATION - W.O.s 503.510, 4721, 503.527, 503.562, 1339, 503.554, 503.546, 4926, 503.456, 1839.24, 6987, 1839.28, 503.539, 503.577, 503.569, 503.610, AND 503.641.

The following information is current as of December 1, 1970:

1. Case No. 892295 W 503.510
 Miller vs. City of Santa Monica, et al.
 Los Angeles County Superior Court

(An action by private upland owners involving title to tidelands that have artificially accreted. Both the State Lands Commission and the Division of Beaches and Parks have interests to protect.)

No change; i.e., The City and the State have not filed any Demurrer or Answer as yet. However, the City and the State have entered into a Stipulation with the Plaintiffs in lieu of a preliminary injunction. The Stipulation restrains the Plaintiffs from building in the disputed area, and restrains the City and the State from removing any improvements thereon.

2. Case No. 5 Original in the United States Supreme Court W 4721
 United States vs. State of California

(Relating to the location of the offshore boundaries between lands under the paramount jurisdiction of the United States and lands owned by the State, for such purposes as minerals. A Supplemental Decree was entered in this case, settling the principal controversies between the State and the United States, but reserving jurisdiction in the United States Supreme Court to settle any remaining controversies.)

The Department of the Interior proposes to issue certain rules and regulations relating to the Channel Islands National Monument, which includes a one-mile strip around Anacapa and Santa Clara Islands. The State claims three-mile strips around each of these islands under the Submerged Lands Act of 1953. However, with one exception, the rules and regulations appear to be within the powers of the Federal Government under the Commerce Clause of the United States Constitution and therefore not inconsistent with any rights which the State may have under the Submerged Lands Act. Therefore, it is proposed to suggest to the Solicitor General a joint procedure for granting salvage permits in the area in question and otherwise to interpose no objection to the proposed rules and regulations.

No change; i.e., The matter was argued before the United States Court of Appeals for the Ninth Circuit in San Francisco on April 14, 1970. The matter is now submitted, and we are awaiting a decision.

Atlantic Oil Company, et al. vs. County of Los Angeles,
et al. and Humble Oil and Refining Company, et al. vs.

Conferences have been held with representatives of the oil companies and the City of Long Beach, discussing the activation of new ad valorem tax litigation in the near future.

6. Case No. 4 Civil 9344 in the State Supreme Court W 4926

A major portion of the argument was devoted to the possible effect on the Heim litigation of the recent decision in City of Long Beach v. Mallon. The matter is now under submission, and the Court has indicated that we may expect a Decision within the next few weeks.

This action is a condemnation matter brought by the County of San Mateo, concerning lands located within the aforementioned statute (Ch. 1857/65). The State contends that said lands were granted in trust to the County or, in the alternative, that the County received an easement over said lands in trust which permits the County to use the subject property for the purposes contemplated by the condemnation action.)

No change; i.e., Stipulation has been signed by all parties, continuing any further proceedings in the case until there is a resolution of the issues presented in State of California vs. County of San Mateo, et al. Case No. 144257 (see No. 9 above).

The purpose of the lawsuit is to test the constitutionality of the statute under which the Agreements were negotiated.)

On November 9, 1970, the Court issued an opinion sustaining the negotiated settlement of tideland problems in certain portions of the Alamitos Bay area. The State was one of the parties on the prevailing side.
