5.

PROPOSED REDRILL OF WELLS "STATE 392"
S-34, S-87, S-93-A and S-137

LEASE: E 392.1
LESSEE: Signal Oil and Gas Company
COUNTY: Orange
AREA: Huntington Beach Field

PERTINENT INFORMATION:

Signal has initiated a full-scale waterflood operation. Production performance clearly indicates that the program has been successful, resulting in an economic advantage to the State.

On December 17, 1970 (Minute Item 8, page 976), the Commission authorized the redrilling of two wells in the initial phase of extending the Main Zone waterflood. Since that time the Commission has authorized the redrilling of thirty additional wells for the same purpose.

In order to maintain a coordinated and uninterrupted secondary recovery development program, Signal has submitted an application to redrill additional wells, "State 392" S-34, S-87, S-93-A, and S-137.

The proposed completion intervals in these wells will provide the best development spacing for optimum flood response. The surface locations of these wells are on the uplands.

The proposed redrilling and completion programs have been reviewed by the Division and determined to be in accordance with good engineering practice and the rules and regulations of the Commission. The Division of Oil and Gas has approved the redrilling of these wells.

IT IS RECOMMENDED THAT THE COMMISSION AUTHORIZE THE APPROVAL OF REDRILLING AND COMPLETING WELLS "STATE 392", S-34, S-87, S-93-A, AND S-137 IN ACCORDANCE WITH THE PROPOSALS SUBMITTED BY SIGNAL OIL AND GAS COMPANY, THE TERMS AND CONDITIONS OF EXCHANGE OIL AND GAS LEASE 392.1, AND THE RULES AND REGULATIONS OF THE COMMISSION.
