REAFFIRMATION OF APPROVAL OF W.S. GOOKIN  
TO SURVEY AND MAP A PORTION OF THE  
SOVEREIGN BOUNDARY IN THE BED OF THE COLORADO RIVER

On October 7, 1971, the Commission approved W.S. Gookin to survey and map the boundary along the west bank of the Colorado River as required and described in Chapter 447 of the Statutes of 1971. A question has arisen concerning the validity of that action inasmuch as the statute did not become effective until March 4, 1972. In order to eliminate any uncertainty regarding the approval the Commission has been requested to reaffirm the approval of Mr. Gookin as surveyor, now that the act is in effect.

Mr. Gookin is licensed to practice civil engineering in California (RCE 15112) and has been recommended by the owners of the adjoining upland property to survey and map the boundary along the west bank line in accordance with instructions set forth in the Division's letter of June 22, 1971. The qualifications of Mr. Gookin are known to the State Lands Division from prior joint work for the Colorado River Boundary Commission.

IT IS RECOMMENDED THAT THE COMMISSION REAFFIRM ITS APPROVAL OF W.S. GOOKIN TO SURVEY AND MAP THE BOUNDARY ALONG THE WEST BANK OF THE COLORADO RIVER AS DESCRIBED IN CHAPTER 447 OF THE STATUTES OF 1971.
