PROPOSED REDRILL OF WELL "STATE 392" S-22-A

LEASE: E 392.1.
LESSEE: Signal Oil and Gas Company.
COUNTY: Orange.
AREA: Huntington Beach Field.

PERTINENT INFORMATION:

Signal has initiated a full-scale waterflood operation. Production performance clearly indicates that the program has been successful, resulting in an economic advantage to the State.

On December 17, 1970 (Minute Item 8, page 976), the Commission authorized the redrilling of two wells in the initial phase of extending the Main Zone waterflood. Since that time the Commission has authorized the redrilling of 53 additional wells for the same purpose.

In order to maintain a coordinated and uninterrupted secondary recovery development program, Signal has submitted an application to redrill additional well "State 392" S-22-A.

The proposed completion intervals in this well will provide the best development spacing for optimum flood response. The surface location of this well is on the uplands.

The proposed redrilling and completion programs have been reviewed by the Division and determined to be in accordance with good engineering practices and the rules and regulations of the Commission. The Division of Oil and Gas has approved the redrilling of this well.
