12.

AMENDMENT OF INDUSTRIAL LEASE PRC 791.1

APPLICANT: San Diego Gas and Electric Company.

LOCATION: A 72.54-acre parcel of tide and submerged land at Carlsbad, San Diego County.

LAND USE: A marine tanker terminal and 20" oil pipeline.

TERMS OF ORIGINAL LEASE:

Initial period: 49 years, from March 24, 1953.

Consideration: \$450 total for period of lease.

TERMS OF PROPOSED LEASE AMENDMENT:

In its original application, the company submitted plans showing the marine terminal area. However, only a pipeline right-of-way of 60' x 3,000' was brought under lease in 1953. The omission of the terminal area was discovered by State Lands Division personnel and the company was notified of the trespass on March 28, 1972. Since the tanker terminal area, not having been brought under lease, was apparently an omission of the Division, it is felt rental for the area should not be charged prior to discovery and notice to the company in March 1972. Therefore, the effective date of the amendment is set at March 24, 1972, the anniversary date of the original lease which is four days prior to the date of discovery of the trespass.

The terms in force in the original lease remain the same except the description of the pipeline right-of-way is modified to a length of 2,622.43 feet from the original 3,000 feet and an area of 72.54 acres for the tanker terminal is added; the consideration for the pipeline is unchanged as it was a lump sum payment of \$450 for the entire 49-year period of the lease but a rental of \$13,662.00 per annum is the consideration for the added marine terminal with provision for a five-year review of the rental rate; a requirement for a surety bond of \$50,000, public liability insurance of \$600,000 single limit for personal injury and \$5,000,000 for property damage has been added since there were no bond or insurance requirements in the original lease.

BASIS FOR CONSIDERATION:

6% of appraised value of land.
