Calendar Item 18 (2 pages)

18.

APPROVAL OF PLAT AND DESCRIPTION OF TIDE AND SUBMERGED LANDS
WITHIN THE BOUNDARIES OF POINT REYES NATIONAL SEASHORE,
MARIN COUNTY, GRANTED TO THE UNITED STATES, BY CHAPTER 983,
STATUTES OF 1965

The Point Reyes National Seashore, Marin County, California, was established and described by an act of the United States Congress, September 13, 1962, Public Law 87-657, 76 Stat. 538. Section 3(a) of the above-named act, authorized the acquisition of State-owned lands within the described boundaries of the Point Reyes National Seashore only with the concurrence of the State.

By Chapter 983, Statutes of 1965, approved July 9, 1965, the California Legislature granted to the United States "all of the right, title and interest of the State of California held by the State by virtue of its sovereignty in and to all of the tide and submerged lands or other lands beneath navigable waters situated within the boundaries of the Point Reyes National Seashore" subject to the following conditions:

- Sec. 2: All minerals including oil and gas are excepted and reserved by the State.
- Sec. 3: Reservation of public right to fish "in the waters underlying" the granted lands.
- Sec. 4: Reversion of grant if the granted lands are not used for public purposes.
- Sec. 5: The United States shall survey and monument the granted lands and record a description and plat thereof in the Office of the County Recorder of Marin County.

In order to comply with Section 5 of Chapter 983, Statutes of 1965, the United States contracted with Mr. Howard W. Waite, Consulting Engineer, to survey, monument, prepare and record a plat and description of the granted lands.

The survey, plat and description have been completed by the United States. Although Chapter 983, Statutes of 1965, does not specifically require State Lands Commission approval, State Lands Division staff has reviewed the plat and description and found that they comply with Section 5 of said statute.

Briefly, it is the intent of the plat and description to show and describe by metes and bounds the previously ungranted tide and submerged lands of the State conveyed to the United States by Chapter 983, together with any remaining right, title and interest of the State within the record patent area of Tideland Surveys 175, 176, 177, 178, 179, 180, 181, 182, 183
