APPROVAL OF PROPOSED REDRILLING OF WELLS
"STATE 392" J-165 AND "STATE 392" J-169,
EXCHANGE OIL AND GAS LEASE E 392.1,
HUNTINGTON BEACH OFFSHORE, ORANGE COUNTY

LEASE: E 392.1.
LESSEE: Burmah Oil and Gas Company.
COUNTY: Orange.
AREA: Huntington Beach Offshore.

PERTINENT INFORMATION:

Burmah has initiated a full-scale waterflood operation. Production performance clearly indicates that the program has been successful, resulting in an economic advantage to the State.

In order to maintain a coordinated and uninterrupted secondary recovery development program, Burmah has submitted an application to redrill "State 392" J-165 and "State 392" J-169, as producing wells.

The proposed redrills are part of the plan for secondary recovery operations approved by the Commission on November 6, 1963 (Minute Item 21, page 9362). An environmental impact report is not required as this is an ongoing project. The surface locations of these wells are on the uplands.

The proposed redrilling and completion programs have been reviewed by the Division and determined to be in accordance with good engineering practices and the rules and regulations of the Commission. The Division of Oil and Gas has approved the redrilling of these wells. The proposed wells are part of the plan of development exempted from permit requirements by the South Coast Regional Commission.
