1976-77 BUDGET PROPOSAL

An Expenditure Program for the $1976-77$ fiscal year in the amount of $\$ 5,586,638$ has been developed in accordance with directives and budgetary allocations issued by the Department of lianance. This program is summarized in schedule "A" attached.
The proposed budget includes funds for carrying on the work historically accomplished by the bivision and provides fund. for undertaking a new effort in surveyang and mapping of ungranted tide and submerged lands as provided in SB 469 (Dills).
In addition, the opportunity oxists to mat $h$ Federal National Ocean Survey funds of $\$ 210,000$ to take tidal gauge measurements of critical points on the shorcline for 1976-77 fiscal year. If the State does not provide these funds in the next fiscal year, the National ocean Survey informs us that Congress will not extend the cost-sharing provisions. This work would then have to be accomplished at totad wiute cost, starting in the 1980-81 fiscal year and following. This work will be necessary at that time in order to perfect tities to Stato-nwned lands in accordance wi.th Chapter 706/75.
