DESIGNATION TO CONDUCT A PUBLIC HEARING -
FOR SUBSIDENCE COSTS AT GAS DEPARTMENT PLANT NO. 1

By letter application the City of Long Beach has requested prior approval for subsidence remedial cost at the Gas Department Plant No. 1, pursuant to Chapter 138, Statutes 1964, 1st Ex. Sess. § 1(e). (Application SLC-302A).

Division staff disagreed with the justification for subsidence costs claimed by the City. Upon being informed of the staff position the City requested a hearing before the Commission in order to present evidence in support of its position by testimony of witnesses and introduction exhibits. It is estimated that a complete presentation by the City and Division staff would take approximately four days.

Pursuant to Public Resources Code Section 60110, the Commission may, by resolution, designate an officer or employee of the Commission to conduct the hearing.

IT IS RECOMMENDED THAT THE COMMISSION:

1. RESOLVE THAT THE EXECUTIVE OFFICER SHALL NOTICE AND CONDUCT A HEARING ON THE MATTER OF SUBSIDENCE REMEDIAL COSTS AT THE GAS DEPARTMENT PLANT NO. 1, LONG BEACH.
2. AUTHORIZE STAFF AND THE OFFICE OF THE ATTORNEY GENERAL TO TAKE ALL ACTION NECESSARY TO IMPLEMENT THE FOREGOING.
