DREDGING PERMIT

APPLICANT: Alameda County Flood Control and
Water Conservation District
399 Elmhurst Street
Hayward, California 94544

PROPOSED DREDGING:

To perform maintenance dredging of approxi-
mately 30,000 cubic yards of material from
an area of State-owned tide and submerged
lands in Mowry Slough (described in Exhibit
"A" attached) adjacent to San Francisco
Bay, Alameda County.

SPOILS PLACEMENT:

Spoils will be deposited at an adjacent
upland disposal site owned by the county.

PURPOSE:

To restore full hydraulic capacity to the
flood control channel.

CONSIDERATION: Public benefit and safety, no royalty required.

ENVIRONMENTAL IMPACT CONSIDERATION:

A Negative Declaration was prepared and
certified by Alameda County the Lead Agency,
pursuant to the California Environmental
Quality Act.

This project is situated on State land
identified as possessing significant environ-
mental values pursuant to Public Resources
Code 6370.1, and is classified in a restricted
use category, Class A. Staff review indicates
that there will be no significant effect
upon the identified environmental values.
This is an existing facility for which
no adverse comments have been received.

OTHER PERTINENT DATA:

The type of material to be removed is silt
and debris which has accumulated in the
flood control channel. A clamshell or dragline
