The public levee will have additional protection from wave action provided at no cost to the public. Additionally the bank protection will slow erosion of material from the bank which is deposited in ship channels which are maintained at public expense. The applicant will benefit from protection of the existing homesite.

3. Staff recommends waiving the normal processing fee in this case because the transaction required minimum staff time and the proposed protective structure is for the applicant's homesite.
4. This project is exempt from CEQA because it is a minor alteration to land not requiring the removal of mature or scenic trees.
