meeting.

CALENDAR ITEM

22.

GENERAL PERMIT  
PUBLIC AGENCY USE

4/79  
W 22078  
De La Cruz  
PRC 5660

APPLICANT: County of Humboldt  
1106 Second Street  
Eureka, California 95501

AREA, TYPE LAND AND LOCATION:  
Two strips of tidelands in the Pacific  
Ocean along Mattole Road near Cape Mendocino,  
Humboldt County.

LAND USE: Construction and maintenance of a rock  
toe seawall.

TERMS OF PROPOSED PERMIT:  
Initial period: 49 years from May 1,  
1979.

CONSIDERATION: The public use and benefit, with the State  
reserving right at any time to set a monetary  
rental if the Commission finds such action  
to be in the State's best interest.

PREREQUISITE TERMS, FEES AND EXPENSES:  
Applicant is permittee of upland.  
Processing costs have been received.

OTHER PERTINENT INFORMATION:  
1. The annual rental value of the site  
is estimated to be \$800.  
2. The entire project as proposed by the  
County involves reconstruction and  
protection of 2 sections of Mattole  
Road. The sections of roadway involved  
have been the subject of ongoing erosion  
from wave action for many years. The  
most severe damage occurred during  
the January 1978 storms.  
3. As a result of the storm damage, Governor  
Brown has declared this area of Humboldt  
County a major disaster area so that

it would qualify for emergency funding. The Federal Highway Administration has concurred with the Governor's proclamation and made available emergency funds for the reconstruction of the roadway.

4. The county, in order to prevent further erosion to Mattole Road, proposes to construct a rock toe seawall along these 2 sections of the roadway. There are 3 Public Access Corridors ("D", "E", and "F"), which were acquired by easement deed to the State as settlement of the Sierra Club v. Vanone Case, within the proposed seawall project.
5. The county has agreed to provide public access within the project area. In order to accomplish this the County has proposed to relocate public access corridors to more accessible locations and establish trails to the beach within the new corridors. Corridor "D" has been shifted north + 250' from the existing corridor to a point where the seawall will be 2 feet in height. Corridor "E" has been shifted south + 200' to an existing trail. Corridor "F" has been shifted north + 200' feet from the existing corridor to a point beyond the seawall. The county has also agreed to construct and maintain turn-outs at Public Access Corridors "D", "E" and "F". The county shall accept liability within the public access corridors.
6. This project is consistent with Article 6.5 because it will protect the shoreline from erosion and provide public access.
7. This project is exempt from CEQA because it will restore and protect facilities damaged as a result of a disaster in a disaster stricken area in which a State of Emergency has been proclaimed by the Governor.

Authority: P.R.C. Section 21172.
