END OF DESCRIPTION

General Plan for Use of Land
Located in Lassen County

The Bureau of Land Management (BLM) has proposed the acquisition of a right-of-way covering Skeddadle Road as it crosses portions of State school land identified as Section 36, T29N, R17E, and Sections 16 and 36, T30N, R17E, MDM, containing 27.29+ acres in Lassen County.

The acquisition of the right-of-way covering Skeddadle Road will have no direct impact on the property, because it is an existing road that is open for public and BLM use. Skeddadle Road is considered a mainline road for vehicle access to a large area of public lands in the Susanville District, and BLM is attempting to insure public use of the road and to provide the proper administration and utilization of the lands under its jurisdiction.

Skeddadle Road is an existing road and is intended to remain basically unchanged. There will be minor realignments of certain curves, upgrading of the road surface, and a road maintenance program that will occur on an annual basis commencing June 1979 for the safety of the users of the roadway.

Due to the minor nature of the proposed alternatives, no permits are required by local agencies.
