2. The work will include loosening compacted gravel, constructing low level berms to retain spawning gravels, adding gravel (mostly native) to spawning site, and modification of side channels that have historically maintained a spawning population.
3. The work to be performed by Fish and Game at each selected site will be substantially similar in nature. The issuance of this permit would eliminate the processing of individual permits for each selected site.
4. The Department of Fish and Game will submit a complete description of each rehabilitation site to the Commission's staff at least 30 days prior to initiation of the work.
5. This project is exempt from CEQA because the project involves maintenance of streamflows and stream channels to protect fish and wildlife resources.

Authority: 14 Cal. Adm. Code 15104(d).

6. The project is situated on lands identified as possessing significant environmental values pursuant to PRC 6370.1, and is classified in use category "B" which authorizes limited use. The project as proposed will not have a significant effect upon the identified environmental values.

APPROVALS OBTAINED:

United States Army Corps of Engineers and
Regional Water Quality Control Board.

FURTHER APPROVALD REQUIRED:

None.

EXHIBITS:

- A. Land Description.
