The surface owners have requested approval of an assignment of interest to Aminoil U.S.A., Inc. a recent BLM survey revealed the subject area actually covers 282.52 acres. Therefore, staff proposes approval of an amendment of the lease to reflect this corrected acreage figure.

The proposed amendment and assignment will not have an environmental impact and is considered to be a non-project under the Guidelines for Implementation of the CEQA (Title 14, Cal. Adm. Code). An EIR, covering geothermal development in the area, was certified by the State Lands Commission prior to issuing the lease.
