Authority: Cal. Adm. Code, Title 2,
Div. 3, Article 10, Section 2905, Class 1.
(Existing) Class 3 (Proposed).

2. The individual projects are situated on State land identified as possessing significant environmental values pursuant to P.R.C. 6370.1, and are classified in use categories, Classes B and C, which authorizes Limited or Multiple Use. Staff review indicates that there will be no significant effect on identified environmental values.
3. Lake Tahoe Application: The Commission at its meeting on November 27, 1978 suspended all leasing for new construction at Lake Tahoe, except for mooring buoys in designated areas. This action was taken pending completion of an EIR which addresses the cumulative impact of continued construction of piers in Lake Tahoe. Each of the applications herein are for the continued use of existing piers and buoys in the lake, and therefore are not subject to the Commission's suspension of leasing activities for new construction.
4. Permits covering structures in Lake Tahoe will include a condition subsequent that if any structure authorized is found to be in nonconformance with the Tahoe Regional Planning Agency's Shorezone ordinance and if any alterations, repairs, or removal required pursuant to said ordinance are not accomplished within the designated time period, then the permit will be automatically terminated, effective upon notice by the State and the site shall be cleared pursuant to the terms thereof.
5. PRCs 5113.1, 5351.1 and 5411.1 were originally issued as General Permits - Recreational Use. They now qualify for rent-free permits pursuant to Section 6503.5 of the Public Resources Code.
