APPROVAL AND ACCEPTANCE
OF 60-ACRE PARCEL

On September 27, 1973, the State Lands Commission approved Minute Item 24, concerning an environmental study and real property transfer agreement between the State and Mobil Oil Estates (Bair Island Investments). Mobil Oil Estates has since changed its name to Redwood Shores, Inc. Pursuant to the agreement, a comprehensive land use and environmental study was to be conducted by the State in cooperation with other public agencies. Also, Redwood Shores, Inc. agreed to convey to the State at least 60 acres of environmentally sensitive land in the study area which "in its opinion, should best be used for conservation or recreation."

The Bair Island Environmental Study was completed in 1977 and receipt of the report of the study task force was acknowledged by the Commission at its December 1977 meeting. Redwood Shores, Inc. has proposed to convey to the State a number of segmented, linear parcels of land along the levee at Corkscrew Slough. A description of these parcels is attached as Exhibit "A" and a site map is attached as Exhibit "B". The lands proposed to be conveyed to the State are separated by relatively narrow (300 feet) parcels which would be retained in fee ownership by Redwood Shores, Inc. Redwood Shores, Inc. proposes to grant to the State easements for public non-motorized access across these two narrow gaps to allow pedestrian passage along the entire length of the parcel. In the event Redwood Shores, Inc. elects to improve the easement parcels, or otherwise acts to interfere with the public's access easement, the easement may either be relocated to an equally convenient location or structures in the nature of catwalks, walkways, paths, etc., will be constructed at the expense of Redwood Shores, Inc., to guarantee public access all along the conveyed property.

The parcels proposed are within the study area and, consisting as they do of a vegetated berm and wetland habitat, appear to be environmentally sensitive. It therefore satisfies, in the opinion of staff, Redwood Shores, Inc.'s bare legal obligation under the Environmental Study Agreement, despite the facts that it was not the most environmentally sensitive

area studied by the Fair Island Task Force, and was not the parcel suggested by staff for conveyance. Pursuant to the agreement between the State and Redwood Shores, Inc., it was within the company's sole discretion to select the property to be conveyed to the State.

Redwood Shores, Inc. has agreed that maintenance of the levee, along which the property lies, shall be its sole responsibility and the State would accept no liability for failure to maintain the levee by accepting the conveyance. It is anticipated that, if the parcels proposed for conveyance to the State are approved by the Commission, the property will be leased to the Department of Fish and Game for administration. This parcel is exempt from CEQA because it involves acquisition of land for conservation purposes (14 Cal. Adm. Code, Div. 6, Section 15113, Class 13).

IT IS RECOMMENDED THAT THE COMMISSION:

1. FIND THAT IT IS IN THE BEST INTEREST OF THE STATE AND FOR A GENERAL STATEWIDE PUBLIC PURPOSE AND BENEFIT THAT THE COMMISSION APPROVE ACCEPTANCE AND RECORDATION OF A GRANT DEED FROM REDWOOD SHORES, INC. OF THE PARCELS DESCRIBED IN EXHIBIT "A".
2. AUTHORIZE THE STAFF OF THE STATE LANDS COMMISSION AND/OR THE OFFICE OF THE ATTORNEY GENERAL TO TAKE ALL FURTHER STEPS REASONABLY NECESSARY TO IMPLEMENT A TRANSFER OF THE CONVEYANCE PARCELS TO THE STATE.
3. AUTHORIZE THE EXECUTION AND RECORDATION, IN SAN MATEO COUNTY, OF A CERTIFICATE OF ACCEPTANCE AND CONSENT TO RECORDING OF A CONVEYANCE OF THE PARCELS TO THE STATE.
4. FIND THAT CONVEYANCE OF THE PARCELS TO THE STATE COMPLIES WITH THE OBLIGATION OF REDWOOD SHORES, INC., PURSUANT TO THE 1973 ENVIRONMENTAL STUDY AGREEMENT TO CONVEY AT LEAST 60 ACRES OF ENVIRONMENTALLY SENSITIVE LAND TO THE STATE.

CALENDAR ITEM NO. 25 (CONTD)

5. AUTHORIZE A LEASE OF THE CONVEYANCE PARCELS TO THE STATE DEPARTMENT OF FISH AND GAME FOR PUBLIC ENVIRONMENTAL AND RECREATIONAL USES.
6. DETERMINE THAT AN ENVIRONMENTAL DOCUMENT HAS NOT BEEN PREPARED FOR THIS ACTIVITY AS SUCH DOCUMENT IS NOT REQUIRED UNDER THE PROVISIONS OF P.R.C. 21084, AND 14 CAL. ADM. CODE 15100 ET SEQ.

RESERVING THEREFROM four (4) easements 100 feet in width, located within Parcels 1, 2, or 3, each for drainage and water circulation purposes at such locations as Grantor, its successors and assigns, may determine. Said easements to include the right to breach the levee, to enter upon with men, material and equipment to construct, install, repair and maintain any drainage and circulation facility within the said reserved easements wherever they may be located; provided, however, that any improvements located within the reserved easement areas which are interrupted in the exercise of the reserved easements shall be restored; provided further, that the reserved easements shall be located wherever possible, practical and reasonable, substantially perpendicular to the shore line; and provided further, that the location of the reserved easements shall be fixed upon exercise.

W22626

ALSO RESERVING THEREFROM temporary construction easements for the drain above described facilities, 25 feet in width, lying contiguous with each side of the above described reserved easements.

GRANTOR reserves for and on behalf of itself, its successors and assigns, a perpetual easement and right to enter upon the above described Parcels at reasonable spatial intervals with necessary men, materials and equipment to perform work from time to time for the construction, alteration, rebuilding, repair and maintenance of said levees, including the right to construct, alter, rebuild, repair and maintain said levees in conformance with requirements of any public agency, and further including, subject to the duty to restore any improvements placed thereon by grantee, its successors and assigns, the right to interrupt during the period of such construction, alteration, rebuilding, repair and maintenance the use and enjoyment of any pathways, other public access, or improvements situated on said lands. Except as hereinabove specifically reserved, nothing contained in this reservation shall be deemed a reservation of any right to restrict grantees, its successors and assigns, rights to use and enjoy the levees for non-motorized public access purposes; provided, however, that grantee or its assigns may use motor vehicles on the levees, at their sole risk, for property management, patrol and emergency use; and provided further, that grantee or its assigns may, consistent with this reservation, erect at reasonable spatial intervals small boat launching ramps across the levee, but at their sole risk, cost and expense.

FURTHER reserving unto Grantor, its successors and assigns, in connection with land reclamation, the right to place fill on and across any and all landward portions of the above described Parcels up to and against the interior slope of any levees now or hereafter located within the above described Parcels, provided that in the exercise of such reserved right, Grantor, its successors and assigns, shall indemnify and hold Grantee, its successors and assigns, free and harmless from and against any and all claims, demands, costs, losses, liabilities and/or expenses for damage to any improvements occasioned thereby, and the right to utilize such interior slopes of said Parcels for natural drainage resulting from the contour of any such fill, and for recreation and landscaping.

The California Coordinate System Zone 3, was used as the basis of bearings for the parcels described herein. All bearings given are grid bearings. All distances given are grid distances. To convert grid distance to ground distance, multiply grid distance by scale factor of 1.0000636.
