PROPOSED REVISION  
OF COMPROMISE TITLE SETTLEMENT  
BETWEEN USONIA, INC. AND THE STATE

At its meetings on February 9, 1982 and March 23, 1982, the Commission approved a compromise title settlement and exchange involving Usonia, Inc. of Novato. Under the terms of the settlement, the State is to receive a 31 percent undivided interest in the TPL-Suisun Land Bank, together with a grant of the public trust easement over the existing flood control channel of Novato Creek, in return for clearing certain State claims to Tideland Survey 146, Marin County, and in the former bed of Novato Creek.

The proposal submitted to and approved by the Commission called for a grant by Usonia to the State of a 180-foot wide public trust easement over the Flood Control Channel. Mr. Joseph Drosihn, President of Usonia, subsequently asked staff to consider whether the width of the easement grant could be reduced to allow him to use land which is not scheduled for flood control development for several years, if ever. After re-evaluating the title evidence for the State's claim which resulted in the agreement to grant the State the easement, staff has concluded after discussion with the Marin County Flood Control District that a 110-foot wide easement would be equitable and would meet reasonably foreseeable public needs. Mr. Drosihn, acting on behalf of Usonia, has agreed to the 110-foot width.

CALENDAR ITEM NO. 31. (CONTD)

IT IS RECOMMENDED THAT THE COMMISSION:

1. APPROVE A CHANGE IN THE WIDTH OF THE PUBLIC TRUST EASEMENT, AS SHOWN ON THE ATTACHED EXHIBIT "B", TO 110 FEET, AS DESCRIBED IN THE ATTACHED EXHIBIT "C".
2. FIND THAT THIS ACTION IS IN SETTLEMENT OF TITLE AND BOUNDARY DISPUTES AND IS THEREFORE EXEMPT FROM CEQA.
