DREDGING PERMIT

APPLICANT:

US Air Force Headquarters

Space Division

AD/DE R.O. Box 92960 Worldway Postal Center

Los Angeles, California 90009

AREA, TYPE LAND AND LOCATION:

Ungranted sovereign lands at the Point Arguello Coast Guard Station, six miles south of Vandenberg Air Force Base, Santa

Barbara County.

LAND USE:

Dredge 55,000 cubic yards of sediment at the old boat house site for construction of a facility to be used for landing barges carrying space shuttle craft engines.

Spoils to be deposited at an E.P.A. authorized disposal site located 12 miles southwest of the construction site (34° 30' 40" N, 120° 51' 24" W) in the Pacific Ocean beyond the three mile limit. No royalty will be charged for spoils disposed of at sea cr placed on public property. A royalty of \$0.25 per cubic yard of dredged material will be charged for spoils deposited on private property or sold.

PREREQUISITE TERMS, FEES AND EXPENSES:

Filing, extractive development and dredging

fees have been received.

CALENDAR ITEM NO C 1 9 (CONTD)

STATUTORY AND OTHER REFERENCES:

A. P.R.C.: Div. 6, Parts 1 and 2, Div. 13, Div. 20.

B. Cal. Adm. Code: Title 2, Div. 3, Title 14.

AB 884:

8/27/83.

OTHER PERTINENT INFORMATION:

- 1. Determine that an Initial Study/Negative Delaration was prepared for the project by the State Lands Commission dated September 24, 1982.
- 2. All necessary application requirements have been fulfilled.
- 3. This project is situated on State lands identified as possessing significant environmental values pursuant to P.R.C. 6370.1, and is classified in use category Class B, Limited Use.
- 4. Royalty for material disposed of at sea will be waived in consideration of the public benefit of the US Air Force project.

EXHIBITS:

- A. Land Description Map.
- B. Site Map.
- C. Negative Declaration/Initial Study.

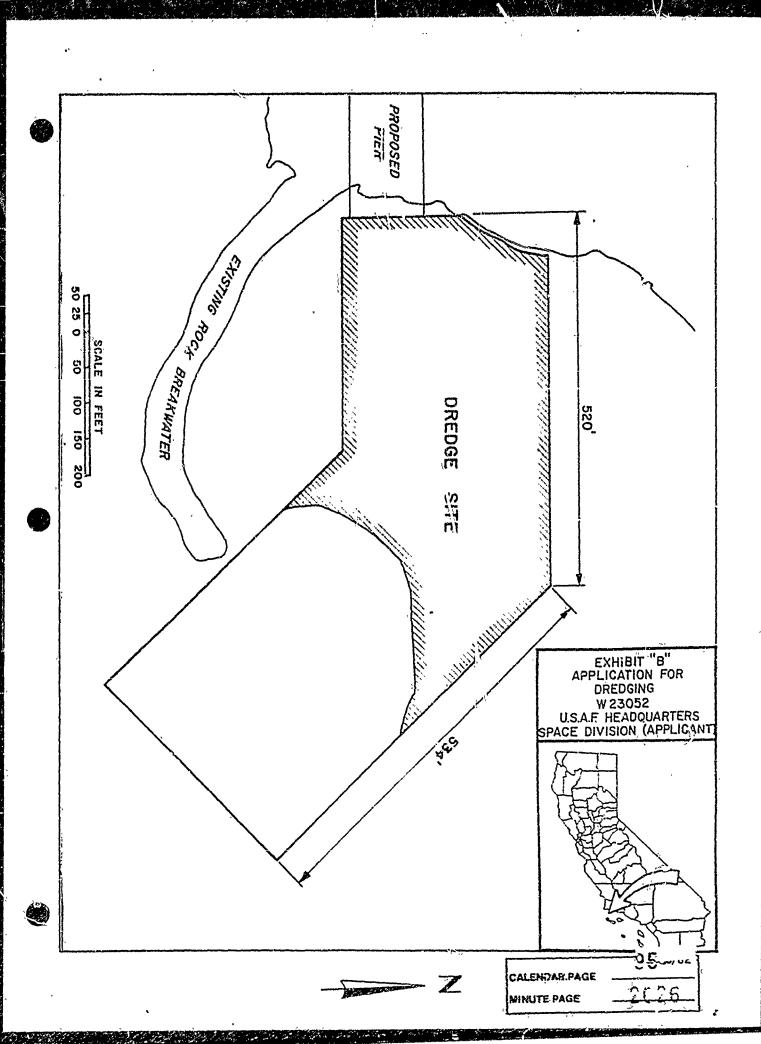

IT IS RECOMMENDED THAT THE COMMISSION:

- 1. CERTIFY THAT A NEGATIVE DECLARATION (ND 318) HAS BEEN PREPARED FOR THE PROJECT BY THE STATE LANDS COMMISSION AND THAT THE DOCUMENT WAS CIRCULATED AND REVIEWED THROUGH THE STATE CLEARINGHOUSE AND PERTINENT AGENCIES PRIOR TO THE APPROVAL OF THE PROJECT.
- 2. DETERMINE THAT THE PROJECT WILL NOT HAVE A SIGNIFICANT EFFECT ON THE ENVIRONMENT.
- 3. PIND THAT GRANTING OF THE PERMIT WILL HAVE NO SIGNIFICANT EFFECT UPON ENVIRONMENTAL CHARACTERISTICS IDENTIFIED PURSUANT TO SECTION 6370.1 OF THE P.R.C.
- 4. AUTHORIZE THE STAFF OF THE STATE LANDS COMMISSION TO ISSUE TO THE US AIR FORCE HEADQUARTERS, SPACE DIVISION,

CALENDAR ITEM NOR Y G (CONTD)

THE DREDGING PI MMIT ON FILE IN THE OFFICES OF THE COMMISSION, SAID PERMIT SHALL BE ISSUED IN CONSIDERATION OF THE PUBLIC SENEFIT WITH NO ROYALTY CHARGED FOR SHOILS PHACED ON AN F.P.A. AUTHORIZED DISPOSAL SITE LOCATED 12 MILES SOUTHWEST OF THE CONSTRUCTION SITE; SAID PERMIT SHALL BE FOR A PERIOD OF ONE YEAR BEGINNING NOVEMBER 1, 1982 AND SHALL ALLOW THE DREDGING OF A MAXIMUM OF 55,000 CUBIC YARDS OF MATERIALS OTHER THAN OIL, GAS AND GEOTHERMAL FROM AN AREA OF SOVEREIGN LANDS IN THE POINT ARGUELLO COAST GUAR STATION HARBOR SOUTH OF VANDENBERG AIR FORCE BAST, SANTA BARBARA COUNTY, CALIFORNIA. SAID AREA IS SHOWN IN EXHIBITS "A" AND "B" ATTACHED HERETO AND BY THIS REFERENCE EXPRESSLY MADE A PART HEREOF. THE MATERIAL DREDGED SHALL BE DEPOSITED IN A DISPOSAL SITE APPROVED BY THE E.P.A. AND ALL OTHER APPLICABLE REGULATORY AGENCIES; THE COMPLETE PERMITS ARE CONTAINED IN FILE W 23052 LOGATED IN THE GOMMISSION OFFICES.

STATE LANDS COMMISSION

EXECUTIVE OFFICE 1807 - 13th Street Sacramento, California 95814

PROPOSED NEGATIVE DECLARATION

EIR ND 318

File Ref.: W 23052

SCH#: 82092804

Project Title: Pier Construction-Vandenberg AFB.

Project Location: Santa Maria Basin, Pactfic Ocean, at Point Arguello Coast Guard

Rescue Station, near Lompoc, Santa Barbara County.

Project Description: Dredging and pier construction for landing of external tanks for

the space shuttle.

This NEGATIVE DECLARATION is prepared pursuant to the requirements of the California Environmental Quality Act (Section 21000 et seq. of the Public Resources Code), the State CEQA Cuidelines (Section 15000 et scq., Title 14, of the California Administrative Code), and the State Lands Commission regulations (Section 2901 et seq., Title 2, of the California Administrative Code),

Based upon the attached Initial Study, it has been found that:

the project will not have a significant effect on the environment.

(x) the attached mitigation measures will avoid potentially significant effects.

Contact Person:

Ted T. Fukushima 1807-13th Street Sacramento, CA 95814 Tel.: (916)322-7813

> CALENDAR PAGE MINUTE PAGE

MITIGATION MEASURES

- Keep human interference with the natural environment to a minimum by declaring intertidal areas away from the construction sites "off-limits" to construction workers.
- b. Resending of abalone in the area to be affected by blasting and dredging. The California Department of Fish and Game and U.S. Fish and Wildlife Service are concerned about the diminishing population of abalone along the Pacific Goast, and the destruction of approximately 50 to 100 individuals would be regarded as an adverse impact.

Abalone reseeding is part of the abalone management plan of the California Department of Fish and Game.

- É. Avoid blasting when birds or marine mammels are within the blast area.
- d. Use slow-burning explosives for blasting. Research has indicated that the use of slow-burning explosives (such as Nitranon) results in far less damage to fish because of the slow generation of the pressure wave accompanying the explosion.
- e. Prepare to fuel spill contingency plan in case of accident.
- f. Have a biologist at the site to inspect con truct activities to ensure that a minimum amount of physical impacts occur.
- g. The applicant will construct three rock structures 40' x 25' x 3' high, spaced 15 feet apart within the area between the existing breakwater and the southern edge of the dredge site. The Department of Fish and Game will approve the actual site before any material is placed. Rock for the proposed structures will be at least 2.5' in diameter.

For building construction projects, complete attachment "A".

CALENDAR PAGE 98 - 2629

C. ENVIRONMENTAL SETTING

- 1. Describe the project site as it exists before the project, including information on topography, soil stability, plants and animals, and any cultural, historical, or scenic aspects. Describe any existing structures on the site, and the use of the structures.
- 2. Describe the surrounding properties, including information on plants and animals and any cultural, historical, or scenic aspects. Indicate the type of land use (residential, commercial, etc.), intensity of land use (one-family, apartment houses, shops, department stores, etc.), and scale of development (height, frontage, set-back, rear yard, etc.).

D. ENVIRONMENTAL IMPACT ASSESSMENT

Answer the following questions by placing a check in the appropriate box. Discuss all items thecked "yes" or "maybe". (Attach additional sheets as necessary)

		MINUTE PAGE			

PROJECT DESCRIPTION

(1) Remove existing wood pier and boathouse 350 feet by 40 feet; (2) remove existing 36 inch diameter concrete filled steel support piles (approximately 25); (3) dredge 55,000 cubic yards of rock and sand to a depth of 12.4 feet below mean sea level by clamshell dredge; (4) excavate 5,000 cubic yards of bank material; (5) transport 55,000 cubic yards of dredged material to an ocean disposal site (pending approval by the Environmental Protection Agency); (6) install six 3-pile dolphins; (7) discharge 500 cubic yards of concrete and 250 cubic yards of backfill to construct an earth and concrete solid fill pier; and (8) place 250 cubic yards of rip-rap at the base of the proposed pier.

All material that are not salvaged by the contractor in the removal of the 5,000 cubic yards of excavated bank material, pier and boathouse, will be removed to an upland disposal site. In the removal of the concrete filled steel pipe support riles, slow burning explosives may be used, if mechanical methods are unsuccessful.

It is proposed to transport the dredged material for disposal to a one time only ocean disposal site subject to approval from the Environmental Protect, in Agency (EPA). Two other alternatives for disposal are available: (1) approved EPA ocean disposal site IA-1, near Port Hueneme, with material 100 miles from the project site; and (2) an upland disposal site. Both these methods would considerably raise the cost of the disposal of the dredged material. A maximum of 55,000 cubic yards of Monterey shale and sand (fractured shale will be generally one feet diameter in size) will be disposed of at this site. The shale is clean, uncontaminated bedrock, with less than 10 percent sand. The disposal site is located 12.7 miles west southwest of Point Arguello, between latitudes 34° 30' 25" and 34° 30' 55" north and longitudes 120°51' 09" and 120°51' 39" west, which is located in the upper reaches of submarine Arguello Canyon system, at a depth of 2,100 feet below mean sea level. Disposal is planned for the fall 1982. This site is located seaward of areas utilized for commercial fishing and is not within any current OCS lease tract or near any oil or gas-related development activities.
