PRELIMINARY NEGATIVE DECLARATION

EIR NO 343

File Ref.: W 1124.40

SCH#: 83053007

Project Title: Fleur Du Lac Tahoe Renovation

Project Location: Section 36, T15N, R16E, MDM, Tahoe Pines,
Lake Tahoe, California, Placer County.

Project Description: Repair and renovate breakwaters, jetties and
seawalls, and replacement of deteriorated timber
pier. Installation of 22 boat slips.

This NEGATIVE DECLARATION is prepared pursuant to the requirements of the California
Environmental Quality Act (Section 21000 et seq. of the Public Resources Code), the State
CEQA Guidelines (Section 15000 et seq., Title 14, of the California Administrative Code),
and the State Lands Commission regulations (Section 2901 et seq., Title 2, of the
California Administrative Code).

Based upon the attached Initial Study, it has been found that:

- the project will not have a significant effect on the environment.
- the attached mitigation measures will avoid potentially significant effects.

MITIGATION MEASURES

1. Crayfish can be trapped prior to dredging, held and then replanted when dredging is completed to avoid major impacts to this species.
2. Additional waterborne traffic as the result of the additional 22 slips is anticipated to be minimal with no significant environmental impacts.
3. To mitigate the breakwaters' impacts on harbor circulation, the following measures have been proposed:
 - a) establishment of a mechanism for induced circulation during low tide levels (i.e. a culvert and air lift pump);
 - b) promotion of high crayfish populations for algae removal;
 - c) restriction of fertilizers to slow-release varieties; minimum irrigation; and controlled surface runoff into the harbor; and
 - d) development of a harbor protection home and boat owners manual; establishment of a summer monitoring program.
