APPROVAL OF A COMPROMISE TITLE SETTLEMENT AGREEMENT
CONCERNING LANDS IN BELMONT, SAN MATEO COUNTY

A title dispute exists between the City of Belmont and the State, acting through the State Lands Commission. At issue is ownership of a 19-acre parcel of land located in Belmont, San Mateo County. The owner of record is the City of Belmont. The property is just east of the Bayshore Freeway near Ralston Avenue. It is depicted on the attached plat.

The land was originally conveyed by the State to the City's predecessors in interest by patents issued pursuant to surveys of what were purportedly swamp and overflowed lands. The characterization of the land was made notwithstanding the fact that in a natural condition the property was crossed by O'Neill Slough, then a tidal and navigable waterway of the State. Due to the existence of this waterway within the parcel, staff asserts that approximately six acres of the property are owned by the State in fee while claims of a public trust easement exist over other portions of the parcel. While not officially concurring in staff's analysis, the City, through its City Manager and elected officials, has entered into discussions with a view toward resolution of the dispute. The City has proposed settlement of the dispute in accordance with the following general terms. The area over which a State sovereign fee claim exists would be developed as a public park and recreation area including athletic fields, landscaping, bike and pedestrian paths and benches along the present site of O'Neill Slough.

CALENDAR ITEM NO. 26 (CONT'D)

Obstructions to the natural flow of water through O'Neill Slough at the settlement parcel will be removed, to the extent possible without causing unacceptable damage to adjoining properties. The City of Belmont would quitclaim to the State the public trust easement in the park "Public Trust" parcel. The underlying fee to the park/recreational complex would then be quitclaimed by the State to the City of Belmont after State lands staff approval of plans for development of the park complex. Staff and the City would agree to a mutually acceptable location of the 100-foot wide right-of-way across O'Neill Slough as previously granted, but not placed, pursuant to BLA 169.

The southerly portion of the parcel, over which staff has asserted at least a public trust easement claim, would be cleared of State interest in exchange for payment of \$90,000 into the land bank trust fund, of which the Commission is the trustee. It is presently contemplated that the southerly sub-parcel, consisting of approximately six acres, would then be leased by the City to a private corporation for hotel and associated commercial development. All property involved in the proposed transaction has been filled except for the present bed of O'Neill Slough which the State owns and would retain in fee. The property to be developed as a hotel and as a park, with the exception of the present O'Neill Slough, has been filled, reclaimed and removed from the public channels.

At its April 28, 1983 meeting, by Calendar Item 26, the Commission was asked by citizens of the City of Belmont to authorize staff to conduct a public hearing in Belmont on whether: (1) the proposed park development is the most appropriate public trust use for the State's fee ownership; and (2) the proposed settlement is in the best interest of the State. Staff conducted the public hearing at the Belmont Council Chambers on May 17, 1983. Opinions, both oral and written, were received by staff. A certified shorthand reporter transcribed the oral comments.

The great majority of those expressing opinions at the public hearing favored the park and hotel development, although some concern was expressed about the placement and traffic capacity of a road from Ralston Avenue through the parcel. The road will also serve an adjoining 45 acres, cleared of State sovereign interest by PLA 169, which has been proposed for residential development and which is not owned by the City.

After studying the record and reflecting on the issues raised in the public hearing, staff has concluded that the proposed park/recreational complex is consistent with the State's public trust ownership of this parcel and that the settlement is in the best interest of the State.
