GENERAL PERMIT - PUBLIC AGENCY PERMIT

At its March, 1983, this Commission authorized a land exchange among the Estero Municipal Improvement District, the City of San Mateo, and the State Lands Commission. This exchange, which will soon be executed and recorded will settle title to an approximately 120-acre parcel of land spanning the border of the Cities of Foster City and San Mateo. By the exchange, the State will acquire title to a 40-acre tract. This tract is depicted in its general location on Exhibit "B" (which is attached to and incorporated as a part of this calendar item) as the PARCEL TO STATE.

The California State Department of Fish and Game has asked to use this parcel for the purposes of open space, wildlife habitat, public recreational use and access, and possibly marsh restoration. The period of the permit proposed is 49 years and no consideration will be charged because the permittee is a public agency and the permit will provide a statewide public use and benefit. The permit period will begin when the exchange agreement is recorded.
