AWARD OF ROYALTY OIL SALES CONTRACT,
STATE OIL AND GAS LEASE PRC 426,
HUNTINGTON BEACH FIELD

On July 21, 1983, the Commission authorized the competitive bid sale of royalty oil produced from State Oil and Gas Lease PRC 426. The royalty oil is currently being purchased under a contract which will expire on November 1, 1983. The State's share of royalty oil produced from State Lease PRC 426 is approximately 1,100 barrels per day with an average gravity of 22° API.

On August 8, 1983 the Staff offered by competitive public bid the royalty production from State Lease PRC 426. Attached as Exhibit "A" is a list of the bidders and their bonus bids in dollars per barrel above the base price. The base price is the highest price posted for oil of like gravity and quality in the Huntington Beach Field on the day of delivery.

The Commission Staff has reviewed the financial ability of the bidders to fulfill the obligations of the contract and their physical ability to take the oil, and has determined the highest responsible bidder, which is identified on Exhibit "A". The contract, if awarded, will be for a term of 18 months, with delivery commencing on November 1, 1983. Delivery of the oil will be by exchange agreement without any change in the existing oil production and transportation facilities.
