SETTLEMENT AGREEMENT FOR  
STATE OF CALIFORNIA v. RICHMOND SANITARY SERVICE  
CONTRA COSTA SUPERIOR COURT

In February 1980 the Commission authorized settlement of State of California v. Richmond Sanitary Service (Contra Costa Superior Court No. 160686). The settlement agreement provided that lands claimed by Richmond Sanitary Service would be cleared of State claims in exchange for lands valued at \$100,000 and suitable for public trust purposes. In July 1980 the Commission approved an amendment to the settlement agreement allowing the \$100,000 to be deposited into a trust fund administered by East Bay Regional Park District. The purpose of the trust fund was location and acquisition on behalf of the State Lands Commission of lands suitable for sovereign public trust purposes. The \$100,000 has been in the trust fund since April 1981.

In October 1982 the Commission authorized acquisition of those lands described in Exhibit "A" and depicted on Exhibit "B", using the funds from the Richmond Sanitary settlement. The purchase price was approved at \$81,000 for the 100 acres of tideflats and filled lands owned by World College West. Upon securing a preliminary title report for the property to be acquired, staff discovered that it was encumbered by a reservation to Leslie Salt Company of mineral rights to the parcel including the right to remove earth and gravel from a substantial portion of the parcel. In addition,

two strips, along the southerly and westerly boundaries of the parcel, and consisting of a total of approximately 16 acres, are burdened by an easement owned by Leslie Salt Company for pipelines, roads and utilities. Leslie Salt Company has agreed to quitclaim to the State Lands Commission its mineral rights, including the right to remove earth and gravel, in the parcel to be acquired. Leslie retains its easement for pipelines, roads and utilities over the 16 acres. See the attached Exhibit "C" for a description of the easement parcel and Exhibit "D" for a plat of the quitclaim parcels. Leslie has declined to terminate this easement.

World College West has proposed that the Commission accept conveyance of the parcel with the 16 acres encumbered by the easement for pipelines, roads and utilities. Purchase price for these 16 acres, if the Commission approves their acquisition subject to the easements, would be \$400 per acre, one-half the amount approved for payment for the balance of the parcel, reducing the previously approved purchase price from \$81,000 to \$74,600.
