EXHIBIT "A"

1. Amount

The sell off will be one contract for 100% of the royalty oil allocated to State Oil and Gas Leases PRC 3133, PRC 3150, PRC 4000 and the PRC 1824, Carpinteria and Summerland Fields. This is approximately 328 barrels per day of between 25^o-36^o API gravity crude oil.

2. Price

The purchaser shall pay an amount per barrel equal to the Base Price plus a bonus bid of not less than 35 cents per barrel. If there is no such posting, then the Base Price shall be the market price generally prevailing in the nearest field and paid for oil of like gravity on the day of delivery as determined by the State. The Base Price shall not include any deduction for delivery, transportation or dehydration. The Base Price shall be computed to the closest tenth of each degree of A.P.I. gravity and the closest tenth of a cent per barrel. The tenth of each degree of A.P.I. gravity shall be computed on actual prices paid to such tenth degree or, if none, computed by arithmetic interpolation.

3. Term

The term of the sell-off contract will be from July 1, 1984 through December 31, 1985.
