RATIFICATION OF CONTRACT FOR
EMERGENCY LEVEE REPAIR

PARTY: State Lands Commission

APEA, TYPE LAND AND LOCATION:

Approximately 3,200 lineal feet of levee within a 38-acre parcel of land, adjacent to the Petaluma River, Sonoma County. This parcel was quieted in the State as sovereign tide and submerged land by White vs. State (1971), C.A. 3d 738.

SITUATION:

Emergency action was taken by the Executive Officer on January 12, 1984, to prevent a levee break and flooding of sovereign State land adjacent to the Petaluma River. A \$14,640 contract was let to perform emergency repair on an existing levee located within the 38-acre parcel of land quieted to the State of California in the case of White vs. State (1971) 21 C.A. 3d 738.

Exceptionally high tides occurred in January which threatened flooding and damage to the State parcel and, incidentally, to private agricultural acreage east of the river. Last year's high tides and storms caused serious flooding. Telephone calls from all of the potentially affected landowners and their legislators brought the problem
