REQUEST FOR AUTHORIZATION TO
SETTLE CONDEMNATION ACTION BY A
BOUNDARY LINE AGREEMENT QUIETING A
PORTION OF BED OF STANISLAUS RIVER
(UNITED STATES V. 2.3 ACRES,
STANISLAUS COUNTY)

In 1980, the State Lands Commission was served with a condemna-
tion action entitled United States v. 2.3 acres, Stanislaus
County, affecting land adjoining and in the present bed
of the Stanislaus River in the town of Knights Ferry in
Stanislaus County. This site will provide public parking
and access to the river in partial mitigation for the New
Melones Lake Project.

The staff of the Commission has researched the historic
location of the river as it flowed in the vicinity of the
subject project. The river apparently shifted position
some time in the late 1940s. The location of the river
as it last naturally existed is an open question.

Rather than contesting the issues of historic navigation
and river location, the staff of the Commission and the
United States Army Corps of Engineers have reached a proposed
boundary line agreement. If implemented, this agreement
would establish the present Stanislaus River as State property
and would quiet the uplands of the river as federal property.
The agreed-upon right and left banks of the last natural
location of the Stanislaus River at this site are described
in Exhibits "B" and "C" of this Item. The staff supports
this resolution of the case due to the disputed issues
of navigation and historic river location.
