OTHER PERTINENT INFORMATION:

Lease PRC 5259.1 was initially issued to Harbour-Pacific, Ltd. for a period of 15 years, effective June 1, 1977. The lease premises, consisting of 0.593-acre, was to be developed as a commercial marina with completion of construction on September 1, 1979. Consideration was set at \$450 per annum until completion of the project, and \$5,200 thereafter, with a five-year rent review. On April 26, 1979, the Commission authorized extension of the construction limiting dates from July 1, 1980 to July 1, 1981. By Commission action of October 29, 1979, the lease was assigned to KTI Properties and amended to increase the lease area, adjust the rental to \$7,858 per annum upon completion of the project, and provide authorization in concept and form for Lessee's mortgaging or encumbrancing the lease premises for financing purposes with a provision that the secured party lender be approved by the Commission's Executive Officer and that such party execute this Security Agreement. Crocker Bank was never approved as secured party lender nor has it executed a Security Agreement. The lease was amended again on March 19, 1980, providing for a total lease term of 42 years, ten months, effective June 1, 1977; and deletion of renewal options; consideration was amended to \$450 per annum until completion of the project (July 1, 1981) with a new rental to be determined thereafter.

KTJ Properties entered into a limited partnership with the Robert P. Warmington Company in November 1980, for proposed development of the upland with a condominium subdivision and berthing facilities to extend over the lease premises. The development plans were subsequently revised to propose a single-family lot sale program on the upland and associated berthing. Staff was processing the assignment of the lease to the Warmington partnership and amending the lease type to accommodate a change in the plans from commercial boat docks, to berthing associated with upland residential development, when notified by the lender, Crocker National Bank, of their foreclosure upon the upland property. There was never any formal approval of KTJ's assignment to the Warmington partnership or the latter's encumbrancing of the lease to Crocker.

Staff recommends termination of Lease PRC 5259.1, to KTJ Properties, effective May 24, 1984, on the following grounds:

1. The major default by KTJ on this lease is its failure to construct the improvements as proposed under the terms of the lease, and within the allocated construction limiting dates which expired July 1, 1981, so that income could be generated from the lease premises as contemplated.
2. KTJ's loss of ownership constitutes a separate breach under the lease. Pursuant to the provisions of the lease, the leasehold interest is not severable from the rights and interests of the Lessee in the littoral land without prior written approval of the Commission.

Following foreclosure, Commission staff met with KTJ on a number of occasions to discuss alternative to cure the breaches of the lease, and so that KTJ could provide assurances to staff that KTJ could feasibly and successfully complete development of the lease parcel. Staff, after careful analysis over a period of six months believes KTJ is unable to meet the required conditions for non-termination of the lease.

CALENDAR ITEM NO. 23 CONT'D

Pursuant to the Commission's delegation of authority and the State CEQA Guidelines (14 Cal. Adm. Code 15061), the staff has determined that this activity is exempt from the requirements of the CEQA, because the activity is not a "project" as defined by CEQA and the State CEQA Guidelines.

Authority: P.R.C. 21065 and 14 Cal. Adm. Code 15378.

This activity involves lands identified as possessing significant environmental values pursuant to P.R.C. 6370 et seq., but will not affect those significant lands.
