APPLICANT: GRI Exploration, Inc.  
545 Middlefield road, Suite 200  
Menlo Park, California 94025

BACKGROUND: Pursuant to Commission action in October 1983,  
the drilling obligation on geothermal lease  
PRC 5819 was extended from October 31, 1983, to  
July 15, 1984.

The Lessee and Commission staff are currently  
evaluating the lease terms for all geothermal  
leases held by GRI Exploration and GRI  
Development. The goal of this evaluation is to  
determine what changes, if any, that may have  
to be made in lease obligations to obtain the  
timely development of these leases.

GRI and Commission staff hope to have proposals  
for lease amendment on the Commission's  
September agenda. Pending these proposals GRI  
Exploration would like to extend the drilling  
obligation on PRC 5819 to October 15, 1984.
