GENERAL LEASE - INDUSTRIAL USE

During consideration of Calendar Item 27 attached, Mr. Roger Woolley of Western Salt Company appeared to ask that the proposed lease be amended to incorporate language stating the Lessor (SLC) will obtain the approval of the Lessee (Western Salt) prior to exercising the rights provided for in Section 2, Paragraph 2 of the lease form. Commission-Alternate Ordway requested that language stating that the Commission would consult with the Lessee be included in the lease.

Without objection, the resolution in Item 27, was approved with the understanding that the additional language stating that the Commission consult with the Lessee be incorporated in the lease form.

OTHER PERTINENT INFORMATION:

1. BACKGROUND

PRC 175.1 covers 16 parcels of land in South San Diego Bay for the purpose of salt production. Individual leases covering these parcels were first authorized by the Board of State Harbor Commissioners in 1927. Additional parcels were leased in 1940. The leases authorized by the Board were for a period of fifty years.

In 1941, pursuant to Section 6216 of the Public Resources Code, management of the Western Salt Company leases were transferred to the State Lands Commission and consolidated under PRC 175.1. In August 1965 the Commission amended the leases to provide for a common termination date of January 31, 1984.

In September 1965 the t. a and submerged lands were conveyed in trust to the San Diego Unified Port District pursuant to Assembly Bill 3188. In 1973 Senate Bill No. 632 revoked the conveyance and directed the Resources Agency, in cooperation with the State Lands Commission, to study management alternatives.

The resultant San Diego Bay Tidelands Task Force presented a report and recommendation on the use of South San Diego Bay tide and submerged lands to the State Legislature in January 1978. Included in the report was the recommendation that the land should revert to the State Lands Commission and, in turn, be leased to the Department of Fish and Game for wildlife management purposes. The report further recommended that the Department work with Western Salt Company to evaluate the possibility of continued salt operations for compatibility with wildlife management.

2. CURRENT SITUATION

Western Salt Company has applied to the State Lands Commission for a replacement lease covering the salt pond operation. Commission staff has worked with the Department of Fish and Game and Western Salt to develop a lease proposal which addresses the concerns of each party. Included as special provisions are the following:

- a. As part of the consideration for this lease, the State reserves the right to grant leases and permits to other private or governmental entities for the purpose of scientific study, development of management plans and any other uses approved by the State, so long as such use does not substantially interfere with the Lessee's salt production operations.
- b. Lessee shall make no changes in the existing salt extraction operation which would result in an increase of significant impacts on fish and wildlife values.
- c. Lessee agrees to cooperate and work with the Department of Fish and Game regarding periodic closure of dikes and a mutually agreeable dike maintenance schedule.
- d. Upon expiration of the lease, Lessee has the right to extend the lease for an additional term of ten years, subject to the terms and conditions negotiated at that time. Should the parties not agree on reasonable terms and conditions for extending the lease, Lessor or Lessee may terminate the lease.

3. Pursuant to the Commission's delegation of authority and the State CEQA Guidelines (14 Cal. Adm. Code 15061), the staff has determined that this activity is exempt from the requirements of the CEQA as a categorical exempt project. The project is exempt under Class 1, Existing Facilities 2 Cal. Adm. Code 2905(a) (2)).

Authority: P.R.C. 21084, 14 Cal. Adm. Code 15300, and 14 Cal. Adm. Code 2905.

4. This activity involves lands identified as possessing significant environmental values pursuant to P.R.C. 6370, et seq. Based upon the staff's consultation with the persons nominating such lands and through the CEQA review process, it is the staff's opinion that the project, as proposed, is consistent with its use classification.

APPROVALS OBTAINED:

California Department of Fish and Game.

EXHIBITS:

- A. Land Description.
B. Location Map.

IT IS RECOMMENDED THAT THE COMMISSION:

1. FIND THAT THE ACTIVITY IS EXEMPT FROM THE REQUIREMENTS OF THE CEQA PURSUANT TO 14 CAL. ADM. CODE 15061 AS A CATEGORICAL EXEMPT PROJECT, CLASS 1, EXISTING FACILITIES, 2 CAL. ADM. CODE 2905.
2. FIND THAT THIS ACTIVITY IS CONSISTENT WITH THE USE CLASSIFICATION DESIGNATED FOR THE LAND PURSUANT TO P.R.C. 6370, ET SEQ.
3. AUTHORIZE ISSUANCE TO WESTERN SALT COMPANY OF A 25-YEAR GENERAL LEASE - INDUSTRIAL USE FROM FEBRUARY 1, 1984, WITH LESSEE'S OPTION TO EXTEND THE LEASE FOR ONE ADDITIONAL PERIOD OF TEN YEARS EACH; IN CONSIDERATION OF ANNUAL RENT IN THE AMOUNT OF \$20,000 DURING THE FIRST FIVE YEARS, WITH THE STATE RESERVING THE RIGHT TO FIX A DIFFERENT RENTAL ON EACH FIFTH ANNIVERSARY OF THE LEASE; PROVISIONS OF A \$20,000 SURETY BOND; PROVISIONS FOR COMBINED SINGLE LIMIT INSURANCE COVERAGE OF \$1,000,000; FOR SALT PRODUCTION OPERATIONS ON THE LAND DESCRIBED ON EXHIBIT "A" ATTACHED AND BY REFERENCE MADE A PART HEREOF.
