APPROVAL OF A
COMPROMISE TITLE SETTLEMENT AGREEMENT
CITY OF NEWARK, ALAMEDA COUNTY

PRIVATE PARTIES: Mayhew Landing Associates

A title dispute exists between the State in its sovereign capacity and Mayhew Landing Associates, a general partnership ("private parties") concerning ownership of a 125.5-acre parcel of real property located in the City of Newark, Alameda County. The property is at the intersection of Thornton and Jarvis Avenues. The real property is referred to as the subject parcel, and is described in Exhibit "A", and is depicted on Exhibit "B".

Private party is the record owner of the subject parcel as successor in interest to the State's Tideland Patent of Survey No. 73 issued in 1865, which included part of the subject parcel.

The private parties contend that the State patent conveyed all right, title and interest of the State within the subject parcel without any reservations to the State, express or implied, and that they now hold title to the property free and clear of any State right, title or interest.

The staff of the State Lands Commission has conducted a study of the evidence of title to the subject parcel and has drawn a number of factual conclusions, including those summarized below:

1. A portion of the subject parcel was included within the perimeter description of State's Tideland Patent of Survey No. 73.

CALENDAR ITEM NO. 52 (CONT'D)

2. The portion included within that survey is unimproved and reclaimed historic wetlands which formerly consisted of marsh grass and a slough. It was in a natural state covered, at least in part, by the ordinary tides, the precise extent of coverage being uncertain.

The staff, is of the opinion that the title evidence and the applicable legal principles lead to the conclusion that the State, in its sovereign capacity, is the owner of some public trust right, title or interest in the subject parcel. The exact extent and nature of the State's interest is, however, subject to uncertainty and dispute.

The private party has offered to resolve the title dispute by written agreement in compromise settlement of the legal and evidentiary issues. The staff of the State Lands Commission recommends approval of the settlement in substantially the form of the agreement now on file with the State Lands Commission.

While the agreement sets forth all the specific terms and conditions of the settlement, a brief summary of some of the principal terms and conditions of the settlement is set forth below, as follows:

1. The private parties will deposit \$40,000 into the Land Bank Trust Fund administered as trustee by the State Lands Commission. The sum will be used by the State Lands Commission to acquire other lands more reasonably susceptible of use for public trust purposes.
2. In exchange for this deposit of monies into the Land Bank Trust Fund the State will convey to private parties all its right, title and interest, and will terminate the public trust interest in the subject parcel.
3. The agreement provides for an escrow and will be effective upon its recordation. Escrow costs will be without cost to the State.

Staff has appraised the subject parcel and has evaluated the law and the evidence bearing on the title dispute, and is of the opinion that the sum of \$40,000 is equal to or greater than the value of the State's interest in the subject parcel.
