ANNEXATION OF TIDE AND SUBMERGED LANDS,
CITY OF CARLSBAD, SAN DIEGO COUNTY

The State Lands Commission has received a request from San Diego County LAFCO to consent as a property owner to the proposed HPI (Hunt Properties, Inc.) reorganization annexation.

This unincorporated area includes approximately 1,107.6, more or less, acres of land within San Diego County including a major portion of the present and historic tide and submerged lands in the bed of Batiquitos Lagoon. The exact location of the boundary of the State's interest in the lagoon has not been determined at this time. The area proposed for annexation is located east of previously annexed minor areas of the Lagoon and includes the Santa Fe Railroad right-of-way and areas east of former U. S. Highway 101 to and including El Camino Real.

Batiquitos Lagoon and its shoreline constitutes a critical planning area that deserves special consideration. The HPI proposal could have beneficial impacts on the Lagoon. Annexation would vest planning and development control with Carlsbad consistent with their existing sphere of influence. The area is presently governed by San Diego County under an approved local Coastal Program. A Local Coastal Program has not yet been approved for the City of Carlsbad. A lagoon management plan has been prepared by City staff in cooperation with the Batiquitos Lagoon Foundation. The major objective of the plan is to balance the needs and goals of development with the desire to preserve significant Lagoon resources. The plan was reviewed by the Carlsbad City Council on August 28 and sent out for a 60-day review period. If adopted, the plan would set standards and goals for future development of the HPI property. Batiquitos Lagoon is also a significant visual asset and would be integrally related with any future HPI development plans. As such, it is in the property owners' best interests to promote lagoon enhancement.

Staff would specifically like to emphasize that the development around the lagoon should be consistent with its restoration and the resulting enhancement and management of

CALENDAR PAGE 254
MINUTE PAGE 2330

its natural resources. Passive recreational uses should be consistent with such management. Public access to and around the Lagoon should be maximized consistent with the Lagoon restoration and enhancement and with the permitted public uses of it and its surroundings.

The State Lands Commission previously approved two annexations of portions of Batiquitos Lagoon to the City of Carlsbad pursuant to Minute Item 19, November 29, 1982, as amended by Minute Item 39, January 27, 1983, and secondly, by Minute Item 34, March 22, 1984. The Commission, at its August 21, 1984 meeting, approved the proposed boundary description of the annexation as technically adopted.

The City of Carlsbad has proposed to annex the subject property pursuant to the Municipal Organization Act of 1977 (Gov. Code Sections 35000, et seq.) These sections, in addition to the approval by the State Lands Commission of the proposed boundaries as described above, require consent by the State Lands Commission to any annexation by a city of either state or legislatively granted sovereign land (tide and submerged lands and the beds of navigable waterways).

Specifically, Gov. Code Section 34009 provides that "No tidelands or submerged lands which are owned by the State or by its grantee in trust shall be incorporated or annexed to a city except suchlands as may be approved by the State Lands Commission."

Consent by the Commission as a property owner (holding exclusive jurisdiction over the land pursuant to P.R.C Section 6301) would only affect a change in the police power jurisdiction status of these lands from the County of San Diego to the City of Carlsbad and in no way affect either the property interests or the jurisdiction of the State Lands Commission or other responsible agencies (i.e., Fish and Game, Coastal Commission, etc.) within the Lagoon.

Therefore, despite our concerns relating to the impact of future developments in the vicinity of Batiquitos Lagoon, staff believes the existing and retained state jurisdiction involving the Lagoon will, in cooperation with the City of Carlsbad, protect the public interests therein.
