AUTHORIZE PURCHASE OF 40 ACRES OF TIDAL
WETLAND NEAR SUISUN CITY, SOLANO COUNTY

At its March 23, 1982 meeting the Commission authorized a Land Bank Option Agreement between the Trust for Public Land (TPL), a non-profit conservation organization, and the State Lands Commission whereby the land depicted in Exhibit "A" and described in Exhibit "B" would be acquired by the State. The vehicle for this acquisition was the title settlement program by which the State would acquire undivided percentage interests in the Land Bank Parcel upon payment by third parties of monies to TPL. The payments to TPL were in exchange for a State patent freeing other properties, themselves not useful for public trust purposes, of State sovereign interest. The Land Bank Parcel consists of approximately 40 acres of unimproved marsh, grass, pickleweed and other primarily wetland vegetation in the vicinity of Suisun Slough just south and west of Suisun City, Solano County. The agreed purchase price was \$65,000. A total of \$42,700 has been paid to TPL in piecemeal fashion as settlements with other parties were reached. This has resulted in a transfer to the State of an undivided 65.68% interest in the Land Bank Parcel.

In January 1983 the Kapiloff Land Bank Act, P.R.C. Section 8600 et seq., took effect. This statute authorized the State Lands Commission as trustee to receive monies for deposit into the Land Bank Fund, created in the State Treasury, all sums received in settlement of sovereign private land title disputes. These monies are then available for expenditure by the Commission to acquire other properties useful for public trust purposes. Since 1983 settlement monies have been deposited into the Fund as authorized rather thru with TPL with the result that there is an outstanding balance of \$22,300 still owing to TPL under the Land Bank Agreement. The state and TPL are left owning undivided percentage interests in the Land
